

Team Mom Responsibilities

What does a Team Mom do? Team Moms work closely with their Head Coach. Your main job is to do administrative and organizing functions for the team, which allows the coaches to stick to their duties... coach!

Primary duties include:

Form Collection: You've got to be "The Hammer!" Collecting all the required forms (medical forms, releases, concussion protocols, etc.) is probably the biggest challenge (but the most important) you will experience all year. In order for players to begin practicing, all the paperwork needs to be complete. Your job is to track down the missing paperwork and make sure all the "I's are dotted and "T's" crossed.

Team Communication: Team Moms work closely with the head coach to communicate pertinent information throughout the season. Your best bet is to have a conversation with the head coach as to who communicates "what" to "whom" and "when." Team Moms also control the content on their "team website page."

Volunteers: We will need assistance for equipment distribution/collection, chain gang, scoreboard and gate/concessions (depending on if games are played on main football field). Your job is to assign people to the various positions.

Snack Schedule: Depending on the grade, you will want to organize a snack / Gatorade schedule. Remember to check for any player food allergies. Note: No food or drinks (other than water) is allowed on Alter's practice or game fields.

End of the Year Party: Organize the end of the year party for the team (3rd-6th grade). 7th and 8th grade Team Moms will work with the head coaches / Athletic Director regarding the football banquet.
